**MESSAGE**

I am pleased to extend my greetings to the members and volunteers of Madira Institute who are attending a workshop in the IEEI class of graduating high school students of Bangladesh-USA in the USA. To our very affectionate sons and daughters, the Embassy is extremely proud of your accomplishments. Keep that!

I appreciate Madira Institute for its diverse initiatives to aid the emigrant families from Bangladesh for acclimating in the USA as the studies of their kids do not suffer in an unknown environment. I hope this initiative would continue to include and through useful mentoring guide the junior members of our Chapter toward excellence both inside the classroom and in extracurricular activities. Our image as a nation endowed with skilled human resources is greatly contingent upon how our young generation performs in its academic endeavours, in this country or elsewhere.

I am very delighted to join the parents, faculty and community members of Madira in they celebrate the good arrival their son and dear ones.

  
Ahmed Qalbi
